### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

This Office Action is responsive to communications filed on January 26, 2001.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-2 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Lawande (US 6,219,697).

As shown in Figures 1-9, Lawande discloses converting a packet using an Ethernet protocol into a packet using the non-Ethernet protocol (BWP), wherein the conversion is based on a stored mapping between Ethernet and non-Ethernet addresses (col. 11: line 37 – col. 12: line 28, esp. col. 11: lines 18-21); encapsulating the packet into a second packet compatible with the non-Ethernet protocol (col. 17: lines 26-44); and transmitting the second packet over the network to a destination node in the network (cols. 15-18; esp. col. 16: lines 1-5).

Regarding claim 2, Lawande also discloses generating an Ethernet address derived from node addressing information (col. 11: lines 38-41).

#### ***Allowable Subject Matter***

Claims 3-13 and 16-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
